

WHAT IS CALL SPOOFING?

Call Spoofing is when scammers use software to make you think you are receiving a local call or a call from agencies like Medicare, when really, it's someone pretending to be them to get personal information. Be careful when answering calls and never give out your banking or Medicare information to someone who calls.

**REPORT
CALL
SPOOFING!**

Spoofting is when scammers use software to make you think you are receiving a local call or a call from agencies like Medicare.

Supported by a \$1,500,000 grant with 100% funding from ACL/HHS. Centers do not necessarily represent the official views of the U.S. Government.

DON'T BE A VICTIM OF CALL SPOOFING

THINK YOU HAVE BEEN A VICTIM OF CALL SPOOFING??
